COMMITTED TO EXCELLENCE IN FINISHING AND FLUID POWER

OTP prides itself in offering superior finishing systems and fluid handling products and service from highly-skilled specialists who genuinely care about your business and have the knowledge, training and experience to deliver solutions you need.

FEATURED VENDORS

offering a wide range of fluid handling products, equipment and services; combined with friendly, comprehensive product assistance and support.
EXPERTS IN THE FINISHING SYSTEMS AND FLUID HANDLING BUSINESS

OTP finishing experts apply pumping, dispensing, fluid metering, and fluid handling products for manual, automatic and robotic operations supporting a wide range of applications.

As your go-to finishing supplier, we enable you to continue to reduce your vendor base while keeping the technical support you require. Our partnerships with our vendors allow us to utilize their internal resources to find solutions to complex situations and to perform research and development on new processes.

OTP represents the industry leaders in finishing and fluid handling equipment and services. Products include:

- **Paint and powder applicators**
  - Automatic and manual spray/steam/ing/extruding guns (electrostatic, HVLP, air, airless, airmix)
  - Electrostatic disc and bell (rotary atomizers)
  - Reciprocators

- **Precision flow and pressure control systems**

  - Paint, adhesives, sealants, and lubricants

- **Ovens**
  - Heated Flash, Dry Off, Curing
  - Inline conventional natural gas fired
  - Batch
  - Infrared

- **Paint booths, air make-up & filtration**
  - Dry filter and water wash
  - Down draft
  - Cross draft
  - Side down draft
  - Custom

- **Pretreatment booths**
  - Inline or batch
  - Spray wand

- **Design, automation & programming**
  - Robotics
  - Integration
  - AutoCAD design, detailed layouts and proposal generation

- **Conveyor systems**
  - Overhead
  - Chain-on-edge
  - Drag
  - Power and free
  - Tube
  - Controls

- **Accessories**
  - Compressed air systems and management
  - Hazardous storage/dispensing units
  - Tanks, agitators and mixers
  - Filters, hoses and fittings
  - Spare parts and service
  - Pumps

As the specialists in finishing and fluid handling, OTP has the answers you seek related to your equipment, systems and fluid handling challenges.

- **Typical applications**
  - Liquid finishing equipment/automatic and manual paint and powder spray 1K, 2K and 3K
  - Powder coating equipment
  - Sealant and adhesive metering and dispense
  - Engineered finishing systems
  - Lubrication systems
  - Piping and circulation systems
  - Ovens—curing, washer and dry-off
  - Spray booths, air make-up and filtration
  - Robotics, automation and programming
  - Spare parts and service

THE OTP REPAIR PHILOSOPHY IS SIMPLE.

- We fix it right the first time—to factory specs or better.
- We fix it on time—we make our schedule fit yours.
- We fix it on budget—if we quote it, we'll honor our quoted price.
- We look for the root cause of failure—repairs are good, but we believe providing solutions is better.

Send us your next repair and discover how OTP Industrial Solutions is more than just another supplier.
