offering a complete lineup of brand name bearings and mechanical power transmission products along with professional repair knowledge and product expertise.

EXPERTS IN THE MECHANICAL MOTION CONTROL AND BEARING BUSINESS

OTP is an employee owned, independent mechanical power transmission distributor that maintains an extensive local inventory at both the corporate headquarters in Columbus, Ohio, and your individual OTP branch location. This enables our sales team to help you immediately with the parts you need today. We are your go-to power transmission supplier.

OTP carries one of the largest inventories of mechanical products from many of the leading manufacturers:

- Standard and metric power transmission components
- Gear motors and reducers
- Variable speed drives
- Material handling systems
- Linear motion components
- Motors and controls
- Fluid power
- Bearings
- Sprockets and chain
- Shaft couplings
- Sheaves and bushings
- Universal shafts
- Custom gearing
- Belts
- Motorized pulleys

OTP goes beyond distribution with a team of experts, engineers and technicians ready and willing to assist you with all your motion control needs, including:

- Engineering new systems
- Upgrading old systems
- Emergency repairs
- Complete overhaul of the entire drive system
- Repair and rebuild of gearbox and drive systems

YOUR SINGLE SOURCE FOR BEARINGS

OTP carries one of the largest inventories of bearings from the industry's top manufacturers. We can provide you with all styles of bearings as well as the other components for your application, including:

- Mounted and unmounted bearings
- Sleeve bearings
- Linear guides
- Cam followers
- Ball screws
- Precision bearings

THE OTP REPAIR PHILOSOPHY IS SIMPLE:

- We fix it **right the first time**—to factory specs or better.
- We fix it **on time**—we make our schedule fit yours.
- We fix it **on budget**—if we quote it, we'll honor our quoted price
- We look for the **root cause** of failure—repairs are good, but we believe providing solutions is better

Send us your next repair and discover how OTP Industrial Solutions is more than just another supplier.

GEAR REDUCERS AND GEARMOTORS

OTP works closely with leading gearbox manufacturers as well as maintaining extensive local gearbox inventory to enable our mechanical sales specialists to help you immediately. Technicians at our local gearbox repair facilities will earn your confidence with their personal, technical support and our quality gearbox repair turnaround. As your power transmission supplier, OTP's customer programs help you reduce your MRO inventory while maintaining high confidence that you have the parts you need today.

LINEAR MOTION COMPONENTS/ACTUATORS

Actuators convert energy into motion. Since actuators come in a wide variety of sizes, forms and functions, and are energized by any number of different sources, it is important to work with a knowledgeable supplier who fully understands the available technology and full range of products.

Only OTP has the technical associates dedicated to selling and supporting all types actuators: pneumatic, hydraulic, mechanical, electro-mechanical and electrical.

Contact your nearest OTP location to help you select the best actuator for your application.
